## Objective

2.6+ years of experience has added skills like Java, Spring boot, Microservices, APIs SQL etc. in my bucket. As a Software Engineer always **hungry to learn** new technologies and **want to work in a challenging environment**, where I can utilize my potential & contribute in bringing growth for the organization along with adding values to my career.

## Experience

### HCL Technologies

Hyderabad

Software Engineer

Jan 2022 to Present

- Tech: **Java, Spring boot, SQL, MySQL, Hibernate, Microservices, APIs.**
- Collaborated with clients to design and develop **100% robust** solutions to meet client requirements.
- Participated in **architecture, design** and implementation of back-end features.

### Amazon

Bangalore

Process Associate

Nov 2020 to Jan 2022

- Meeting targets with **0 errors** in a team of **76 people** that helped me to become **Team Player & Quick Learner.**
- Identify issues to drive optimal **workflow** and business **growth** while working in UK, Germany, France, Italy and Spain regions.

## Education

Asansol Engineering College(AEC)  
B.Tech - Electrical Engineering

West Bengal  
Grad - 2020

Paikar High School  
12<sup>th</sup>

West Bengal  
2015

Paikar High School  
10<sup>th</sup>

West Bengal  
2013

## Technical Skills

- **Languages:** Java, SQL, C.
- **Area of Interest:** OOPs, OS, Data Structures and Algorithms (DSA), Software Development, DBMS, Web Development.
- **Tech:** Spring boot, Servlet and JSP, Hibernate, Git, MySQL, Microservices, HTML, CSS, JavaScript, Github.
- **IDE Used:** VS Code, Eclipse, NetBeans, STS etc.

## Certificates & Achievements

1. **475+ DSA** questions solved in **Leetcode & GFG.**
2. **Three 5 Star** (DSA+Java+SQL) in **HackerRank** ([hackerrank.com/rownabdj097](https://hackerrank.com/rownabdj097)).
3. 12 Weeks JAVA - NPTEL Online Certification
4. Front-end Web Development - HTML Certification
5. CSS Certification.

## Projects

### Live Weather Update: Hosted Website

Apr - May 2023

- **Tech stack:** HTML, CSS, JavaScript, **Rapid API.**
- **IDE:** VS Code.
- Used Rapid API to get the data of weather.
- We can get the weather of any cities in the World by 2 clicks.
- This is totally **Hosted Website.**

**Website Host Link:** [rownabdasgupta.github.io/Live-Weather-Update/](https://rownabdasgupta.github.io/Live-Weather-Update/)

### Group Chatting Application

Apr - May 2023

- **Tech stack:** Java and Socket Programming.
- **IDE:** Apache NetBeans.
- Used **Socket programming** to connect nodes over a network to establish communication between nodes.
- This is upgrade version of my 2 persons "Chatting Application".
- The designed is almost **Clone of WhatsApp.**

**Github:**[github.com/RownabDasGupta/Group-Chatting-Application](https://github.com/RownabDasGupta/Group-Chatting-Application)

### Banking System with ATM GUI

Mar - Apr 2023

- **Tech stack:** Java, Java Swing, Java AWT, SQL, MySQL.
- **IDE:** Apache NetBeans.
- Used java **"Random"** class to generate 4 digit **unique passwords.**
- Used MySQL to store balance, card no. and passwords of users.
- **Features like:** 1.Transaction History, 2. Pin change, 3. Fast-Cash Withdrawal etc. features also available.
